Buying Furniture at The Lowest Point of Price.

Such prices as we are quoting during this Spring Clearance Sale of Furniture creates a demand for furniture. People are anticipating their wants—buying what they will need as well as what they do need. There was no question of the success of this sale after we decided how low to cut the prices. There is a novelty in the way of price making here that you never enjoyed before. The original price tickets remain on the furniture, and you make your own reductions from the original mark on the goods. Every piece of furniture in the house is in the list for reduction except the office furniture.
